Mouse Support for iPad and iPhone

Great news! Anyone who upgrades to iOS 13 for iPhone or iPadOS for iPad will unlock the ability to use a USB or Bluetooth mouse with their device!

Mouse support on iOS 13 and iPadOS is part of the operating system and does not require any special hardware outside of a USB adapter.

LoganTech

Our **ProxTalker** and **ProxPAD** are mid-tech communication solutions. They utilize RFID technology to produce sound without the use of a dynamic screen device. The ProxTalker is relatively indestructible and assists with sentence building and the ProxPAD is beneficial for those who do not have the fine motor skills to pick up small tags.

Our AAC iPad bundles are high-tech communication solutions that utilize AAC apps to help users communicate. One AAC app is included in our bundle for FREE.

Visit www.logantech.com to trial our ProxPAD, ProxTalker, or BrailleCoach FREE for 30 days with the code VIP.

Contact us at:
Phone: 203-721-6074
Toll Free: 866-962-0966

Touch Accessible Platform
Interactive Technology

REVOLUTIONIZE LEARNING WITH TAP•IT

TAP-it is the first interactive learning station designed to provide accessibility to all. TAP-it is infinitely more accessible to physically challenged students and their instructors than stationary or wall-mounted boards. Providing an optimal interface for teaching all with special educational needs at their own pace, the TAP-it reinforces skills that can be transferred to other computer-based learning applications. TAP-it connects to a PC / laptop or MAC so it will run with the software applications you already use.

Intended Touch Technology Plus 10 Point Multi Touch

- This technology recognizes the difference between an arm resting upon the screen and a finger "tapping" or selecting an image.
- Up to 10 Multi Touch points can be used simultaneously.
- Gesture selection is also now included.

Tried and Tested Assistive Technology

- Selling for over 8 years.
- 6th generation of the unit.
- Changes driven by end-user requests.
- Every feature has a purpose

ADA Compliant

- Includes reference guide to assist with different user's unique needs.

SERVING A WIDE RANGE OF STUDENTS' SPECIAL NEEDS

- Down Syndrome
- Sensory Processing Disorder
- Cerebral Palsy and Autism Spectrum Disorder
- ADD and ADHD

IRISPen™ Air 7

Line-by-line scanner: edit, translate, learn!

The IRISPen™ Air 7 is used just like a highlighter: slide it over a line of text to digitise it! The scanned text is then editable and can be translated into multiple languages. Use the voice synthesis function to hear the text being read aloud. A high-performance tool, especially useful in language learning.

IRIScan™ Book 5

The book scanner you can take everywhere

Scan any book or magazine, wherever you are, without tearing the pages, thanks to the new IRIScan™ Book 5. Carry it easily in any handbag. It goes everywhere with you (to class, the library, etc.). An easy way to work efficiently!

IRIScan™ Desk 5

Your documents in a blink!

IRIScan Desk software also integrates our powerful IRIS OCR engine which converts scanned documents into searchable PDF and editable Texts, Word, Excel formats meaning you won't need to do long and boring re-typing anymore! On top of, you can create video, record them and share on-line to explain concept, exercise, unboxing ... The Pro version even enable you to scan ID cards, passports and barcodes for registration tasks!

Less Paper, More Content

nous

What is nous™?

nous™ is a switch access method that simply uses your intentional blinks to access a computer

Affordable, simple, user friendly and fast, nous™ is a unique switch access method designed for people with physical disabilities that affect their limbs and voice. It senses your intentional blinks, allowing you to comfortably control a computer.

Think “blink to click”.

nous™ is both hardware and software. The hardware component is a soft headset that houses the sensors which measure your blinks. The software component translates the blink information from these sensors and uses them as a switch access method for Windows OS based computer applications. You can access **Grid 3**, **Snap + Core First**, **Communicator 5**, **NuVoice** and **Clicker 7**, as well as other software applications that can be used with switch interfaces, such as cause and effect games.

Find out more at getnous.app
