

JUNE

APHASIA AWARENESS MONTH

INTELLIGENCE IS NOT AFFECTED BY APHASIA

84% OF PEOPLE NEVER HEARD OF APHASIA

**APHASIA IS USUALLY CAUSED BY STROKE
OR TRAUMATIC BRAIN INJURY**

Those with Aphasia have

DIFFICULTY WITH:

Speaking

Gesturing

Reading

Using numbers

Writing

Understanding the speech of others

IMPROVEMENT IN COMMUNICATION DOES OCCUR

While there is no cure for aphasia

Research shows the brain can make new
networks and heal.
